POUCHMARK™

DIRECT-TO-POUCH VARIABLE PRINTING

► **FLOW™** CONTINUOUS POUCH-PRINTING SYSTEMS

FLOW 2000

Our blazing fast TTO-mounted friction-feeder/conveyor system, the FLOW 2000 prints a 7-inch-tall stack of flat pouches (or cards) at up to 180 packs per minute. And not just simple text or date codes – 1D, 2D and GS1 barcodes; logos and icons; incremental and database-fed variable codes...all at crisp and clear 300dpi resolution.

FLOW 3000

Designed to meet the demands of multiple industries for an automatic feeding-printing system to print variable information directly to pre-made zippered and gusseted pouches,

the FLOW 3000 is as close as you can get to a perfect solution. Print everything from nutrition panels, compliance data, production codes, logos, text and virtually any type of barcode directly onto pre-formed pouches, eliminating the need for pre-printed, hand- or machine-applied labels.

▶ **VERSA™**

MODULAR TABLE TOP TTO

Now manufacturers and specialty retailers alike (coffee roasters, sweets shops, bakeries, etc.) can custom-print and brand their own bags, pouches and cards on-demand, without going to the expense and trouble of buying custom-printed labels to apply by hand.

Just choose a template from the touchscreen controller (made with the user-friendly Windows-based software included) and press the integrated foot pedal for hands-free, perfect custom printing every time! **Logos, product names, ingredients, barcodes, can all be designed into one template and printed at once.**

In addition, VERSA's modular design allows the user to raise the printer and rubber print pad above the base, in order to open and slide more difficult multi-layered zippered or gusseted bags over the pad for best print quality.

PERECT FOR POUCHES IN EVERY INDUSTRY

- FRESH OR FROZEN FOODS
- MEAT OR POULTRY
- DRY FOODS & INGREDIENTS
- SEAFOOD
- DAIRY
- COFFEE
- SNACKS & CANDY
- BAKED GOODS

500iL	128mm (5.1") x 125mm (5")

ProCode™ PROFESSIONAL

PouchMark's full-featured coding design software, ProCode™ Professional, is included free-of-charge with every PouchMark® TTO System.

Our feature-rich, user-friendly, **Windows®-based software** enables you to easily create everything you'll need in your package coding environment. From standard **expiration dates and lot codes**, to **linear and 2-dimensional barcodes**, to **high-resolution logos and graphics**, ProCode™ does it all.

Although ProCode™ is a proprietary PouchMark® software program, multiple drivers and solutions are available to enable users to interface with their preferred coding and label design software.

A SUPERIOR LINE OF RIBBONS FOR TTO PRINTERS

FLEX PREMIUM DURABLE WAX-RESIN RIBBON

The clear winner in its class, this premium "General Purpose" TTO ribbon is your high quality, cost-effective choice for traditional flexible packaging applications. Crisp text, codes and graphics with very good smudge and scratch resistance.

FLEX ULTRA HIGH DURABILITY WAX-RESIN RIBBON

Remarkably versatile, FLEX™ ULTRA prints clear, dark images on most coated, un-coated and film substrates while providing added resistance to smudging, scratching and less friendly environments. Extra protection at an affordable price.

FLEX SUPREME EXTREME DURABILITY RESIN RIBBON

When durability is critical, and exposure to heavy contact, solvents or harsh environments is of great concern, FLEX™ SUPREME is the answer. This special resin ink formulation provides a nearly indelible image on flexible packaging film, pharma grade pouches and synthetic labels.

Our Xtend™ anti-static back-coating maximizes the life of your printhead.

WITH A VARIETY OF COLOR RIBBON INKS TO CHOOSE FROM

BUILT TO LAST.

PouchMark® brand Thermal Transfer Overprinters are so rugged and reliable, we back every sale with an unbeatable 18-Month Warranty. Our engineers insist on using only the highest-grade materials and components, and our vertical manufacturing protocol ensures the tightest compliance to specifications. The end result?

LESS DOWNTIME.
